OBJECTIVE

Seeking an opportunity as an Embedded Software Engineer where I can apply my basic programming skills and theoretical knowledge in a supportive environment.

EXPERIENCE

Engineering Intern

Jun 2023 – Dec 2023

Tech Innovators

- Assisted with basic tasks related to the development of an inventory management system.
- Participated in minor debugging and troubleshooting activities.
- Gained exposure to foundational software development processes

EDUCATION

BSC, Computer Science | 2024

James Cook University

Relevant Courses: Introduction to Programming, Data Structures and Algorithms, Embedded Systems Design

SKILLS

C, C++, & Python Programming

Arduino & Raspberry Pi Microcontroller

Linux Operating System

Teamwork

Effective Communication
